People living with any form of dementia are invited to attend along with their care partners, other families, and/or friends. During these semi-structured, informal sessions, you will:

- Enjoy breakfast, activities, and entertainment in a comfortable and stress-free atmosphere
- Have an opportunity to spend time with others who have dementia and their care partners
- Meet and talk with our Memory Café partners — students from Dartmouth College, Geisel School of Medicine, and members of Youth-in-Action.

Note: Both the care partner and the person with dementia should register.
